SUMMARY

Full Stack Web Developer with a background in Psychology and life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly applications.

TECHNICAL SKILLS

Languages: HTML, CSS, JAVASCRIPT, JQUERY, NODE.js, REACT.js

EXPERIENCE

2017 – 2020
Outback Steakhouse   **Riverside**, **Ca**
My responsibilities at this job were that of a typical waiter. I would take orders from delightful people who would never lie about the accuracy of their orders to get free food. I was responsible for cleaning my area, helping other servers when they got busy or lazy, take orders, and serve drinks.

Key Accomplishments:

- In the restaurant business there are not many things to accomplish as most of us want to stay at the server position. So instead, something I thoroughly enjoyed was coming across so many different types of people that it gives you perspective on different dynamics of people.

2010 – 2017
Kohls Department Store   **Riverside**, **Ca**
When I started, I was a basic level truck associate where I unloaded shipments. Eventually, moved up to the Visual Supervisor where my responsibilities were to run a team to keep the store's graphics, ads, display's up to corporate guidelines. I had to take conference calls weekly to assess what was completed the prior week so am used to deadlines and frequent performance review.

Key Accomplishments:
- I worked my way up from being on the truck team to a supervisor level within the store. I view this as a big accomplishment seeing how it shows my versatility which my job noticed moving me around in different jobs where I exceeded to become a higher-level supervisor.
